Jon,

Attached is a shortened version of the briefing paper. It is still 5 pages. I do not know how much time you will be expected to talk, so I didn't want to cut out too much so you would have some reference material for questions that might come up. I highlighted main topic areas that you can cover if you are limited to 5-10 minutes.

Let me know if you need revisions.

Also, do you want to have handouts for the secretaries? If so, we can cut this down to a bare outline if that would be appropriate.

Rick
